Practical-2

Aim: Create "Custom Message" application. That will display "Custom Message" in the middle of the screen in the Black color with the Yellow background.
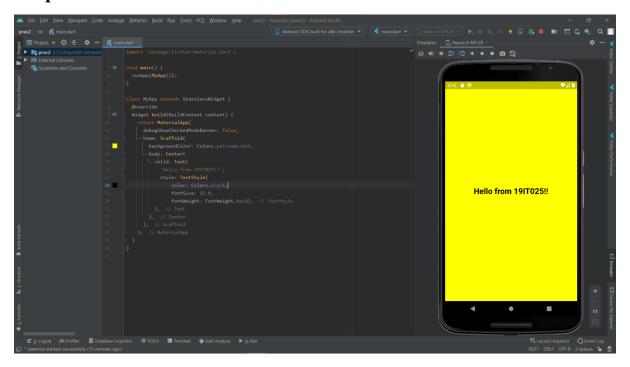

Code:

```dart
import 'package:flutter/material.dart';

void main() {
  runApp(MyApp());
}

class MyApp extends StatelessWidget {
  @override
  Widget build(BuildContext context) {
    return MaterialApp(
      debugShowCheckedModeBanner: false,
      home: Scaffold(
        backgroundColor: Colors.yellowAccent,
        body: Center(
          child: Text(
            'Hello from 19IT025!!',
            style: TextStyle(
                color: Colors.black,
                fontSize: 25.0,
                fontWeight: FontWeight.bold),
          ),
        ),
      ),
    );
  }
}
```
